

B. Nandini

Bengaluru, Karnataka | +91 8792364236 | nandininaidu783@gmail.com

PROFESSIONAL SUMMARY

AI Full Stack Developer and Engineering Leader with 16 months of professional experience designing, building, deploying, and scaling AI-powered SaaS applications. Progressed from AI Full Stack Developer Intern to Full-Time Engineer and subsequently promoted to CTO / Head of Engineering at HireHappi (Emmess Technologies Pvt. Ltd.). Specialized in modern AI application development using React, Next.js, TypeScript, PostgreSQL, Vector Databases, Retrieval-Augmented Generation (RAG), CI/CD pipelines, and LLM integrations. Experienced in leading products from idea to production while collaborating across product, engineering, and business teams.

EDUCATION

Bachelor of Computer Applications (BCA) — St. Francis College, Bengaluru (2021–2024)

Commerce with Computers — St. Jerome's College, Bengaluru (2019–2021)

PROFESSIONAL EXPERIENCE

CTO / Head of Engineering

HireHappi (Emmess Technologies Pvt. Ltd.) | Apr 2026 – Present

- Lead technical strategy, product architecture, engineering execution, and AI initiatives.
- Own end-to-end software delivery including planning, development, testing, deployment, and maintenance.
- Drive adoption of AI-first engineering practices using modern LLMs, RAG pipelines, vector search, and workflow automation.
- Mentor engineering efforts while ensuring scalable and production-ready software architecture.

AI Full Stack Developer (Intern → Full-Time)

HireHappi (Emmess Technologies Pvt. Ltd.) | Mar 2025 – Apr 2026

- Successfully converted from internship to full-time based on performance within three months.
- Built two production-grade AI products from scratch and handled complete product lifecycle from architecture to deployment.
- Developed scalable full-stack applications using React, Next.js, TypeScript, PostgreSQL, APIs, and vector databases.

- Designed Retrieval-Augmented Generation (RAG) pipelines and integrated multiple LLM providers.
- Implemented GitHub workflows and CI/CD pipelines for streamlined deployments.
- Worked extensively with Cursor, Claude Code, Gemini, ChatGPT, Kiro, Antigravity, Visual Studio Code, and n8n.

KEY PRODUCTS

ChooseYourCollege.com: Built and launched an AI-powered college discovery platform using NIRF datasets, intelligent search, and advanced filtering. Took ownership from development through production deployment. Product is actively generating business revenue and continues to evolve.

LegalMaiA: Engineered an end-to-end AI platform for legal professionals covering complete case lifecycle management including petitions, hearings, document generation, case history, firm management, citations, organization metrics, and eCourts integration.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, C++, C

Frontend: React, Next.js, HTML5, CSS3

Backend: Node.js, REST APIs

Databases: PostgreSQL, MySQL, MongoDB, Vector Databases

AI: RAG, LLM Integration, Prompt Engineering, ChatGPT, Claude, Gemini

Automation: n8n

DevOps: Git, GitHub, CI/CD

Tools: Cursor, Claude Code, Kiro, Antigravity, Visual Studio Code

ACHIEVEMENTS

- Promoted from Intern to Full-Time Engineer within three months.
- Promoted to CTO / Head of Engineering within approximately one year.
- Delivered two AI products to production.
- Contributed to a revenue-generating AI platform.
